2017 Price List

Using the Catalogue, Price List & Order Form

Step 1 Choose your product

Study the Catalogue to find the product that best meets your requirements.

Step 2 Calculate quantities required

Assess how many items or rosettes you require excluding stock items. It does not matter whether all rosettes are from the same selection and size, or a mixture of selections and sizes (excluding stock items).

Step 3 Find the section within the Price List

Step 4 Understanding what you are ordering

Read page 2 of the Price List and the description of the Rosette Range on page 3 - 10 that explain the standard dimensions of the rosettes and optional extras available.

Step 5 Fill in the Order Form

- i) Fill in the invoice address box and the despatch address box if different.
- ii) Please state clearly the goods required by date and also the show date in the following format "date/month/year". Due to the seasonal demand for rosettes if your required by date is not to be met the production manager will contact you to confirm with you a revised despatch date.
- iii) Insert the product code under the Style or Ref column. N.B. if a rosette is to have a 2½", oval or cameo centre, suffix the product with /2½"/O or /C respectively.
- iv) Insert the product description and optional extras description for each product selected in the next column (see page 4 of the Price List for optional extras).
- v) If applicable specify the colours of the product under the "Colour of Each Tier" columns, e.g. for rosettes state the outer tier colour first and move in and for a two tone Prize Card write for example Blue top/Red bottom horizontal stripe.
- vi) If applicable specify the type of fastening required by ticking under the appropriate heading.
- vii) State the quantity of product required in the Quantity Column.
- viii) Calculate the price per unit - see Step 6.
- ix) Multiply the quantity by unit price to get the total for that product.
- x) Once all products are filled in add additional costs, e.g. artwork and set ups - see Step 7.
- xi) Total Prices to date and then work out the administration, packing and carriage cost as stated on page 18 of the Price List.
- xii) Total the price and the P&P and add VAT at current rate to the total.

Step 6 Unit price calculation

Prices are set out under the relevant selection or product within the Price List - many depend on volume purchased and optional extra costs. Please read in detail the product section, e.g. Rosettes under which your requirement falls in order to assess any extra costs to be incurred. Where prices vary with volume, take the volume calculated in Step 2 to assess the relevant costing per product.

For example your requirements are:

800 TR1	} Sum the number of rosettes = 1180
240 TR2	
80 OR1	
60 OR2	

This order would attract the 1000+ prices.

Extras for rosettes:

- i) 2½", oval or cameo - add the additional cost.
- ii) Extra tail length and width - select the tail length and width required and then add the additional cost per rosette as specified in the tail length and width on page 3.
- iii) Tail blocking - add 19 pence per blocked tail.

Step 7 Additional Costs

Add to the cost:

- i) The price of new artwork/design - £30 on your first order.
- ii) All repeat orders will incur a separate charge of £7.80
- iii) Tail setups - if there are wording changes assess the number of changes and multiply by 86p.

YOUR ATTENTION IS DRAWN TO THE TERMS OF BUSINESS ON PAGE 14 BEFORE ORDERING
